PLEASE NOTE:

If you are unable to water the week you are scheduled, please switch with another member.

The watering week begins on Sunday and ends on Saturday

Please give each planter at least 2 gallons of water daily. These plants are tropical and require a lot of water, especially during extended dry spells. Fertilize once a week.

If an unexpected situation should arise or if you have any questions, please call Liz.

If anyone is willing to take another turn watering, the month of September and beginning of October are open.

Thank you for your cooperation; it will take all of us to make the planters a success.
